

Geography Year 11 Long Term Plan

Subject: Geography

Week/ Lesson	Term	Topic	Knowledge	Skills Reading and writing tasks:
1	Autumn T1	UK in 21st Century	<p>Overview of human and physical geographical characteristics of the UK, including population density, land use, rainfall and relief, and significant issues associated with these characteristics, including water stress and housing shortages Scale: National</p> <p>Overview of population trends in the UK since 2001, using population pyramids and migration statistics, to determine its position on the Demographic Transition Model Scale: National</p>	
2			<p>An understanding of the causes, effects, spatial distribution and responses to an ageing population Scale: National, Regional</p>	
3			<p>A summary of how the population structure and ethnic diversity of a named place of the UK has changed since 2001 Scale: Regional, Local</p> <p>Identify major economic changes in the UK since 2001 by examining changes in the job market including political priorities, changing employment sectors and working hours Scale: National, Regional, Local</p>	

4			Investigate the pattern of core UK economic hubs Scale: National Identify the changes in one economic hub (Oxfordshire) and its significance to its region and the UK Scale: National, Regional, Local, Fieldwork opportunity	Fieldwork opportunity
5			Identify the changes in Oxfordshire economic hub and its significance to its region and the UK Scale: National, Regional, Local, Fieldwork opportunity	
6			Examine the UK's political role in one global conflict through its participation in international organisations Scale: Global, National	
7			Explore the UK's media exports and their global influence including television programmes and film Scale: Global, National.	
8			The contribution of ethnic groups to the cultural life of the UK through one of food, media or fashion (Chicken Tikka Masala) Scale: Global, National	
9	Autumn T2	Resource Reliance	Outline the factors leading to demand outstripping supply of food, energy and water Scale: Global	
10			Overview of how environments and ecosystems are used and modified by	

		<p>humans including:</p> <ul style="list-style-type: none"> - mechanisation of farming and commercial fishing to provide food - deforestation and mining to provide energy - reservoirs and water transfer schemes to provide water <p>Scale: Global, National</p>	
11	Mocks		
12	Mocks		
13		<p>Understand the term 'food security' and the human and physical factors which influence this</p> <p>How world patterns of access to food are illustrated, such as the world hunger index and average daily calorie consumption</p> <p>Scale: Global</p>	
14		<p>How world patterns of access to food are illustrated, such as the world hunger index and average daily calorie consumption</p> <p>Scale: Global</p> <p>Investigate the differences between Malthusian and Boserupian theories about the relationship between population and food supply</p> <p>Scale: Global</p>	
15		<p>Case study of attempts to achieve food security in one country to include:</p> <ul style="list-style-type: none"> • Investigation of statistics relating to food consumption and availability over time. • The success of one attempt in helping achieve food security at a local scale such as 	

			<p>food banks, urban gardens and allotments.</p> <ul style="list-style-type: none"> • The effectiveness of one past and one present attempt to achieve food security at a national scale such as global food trade, GM crops, 'The Green Revolution' and food production methods <p>Scale: Global, Regional, National, Local</p>	
16	Spring T1		<p>Explore the environmental, economic and social sustainability of attempts to achieve food security, in relation to:</p> <ul style="list-style-type: none"> • ethical consumerism, such as fairly traded goods and food waste <p>Scale: National, Local</p> <p>Explore the environmental, economic and social sustainability of attempts to achieve food security, in relation to:</p> <ul style="list-style-type: none"> • food production, such as organic methods and intensive farming <p>Scale: National, Local</p>	
17		Mocks		
18		Mocks		
10			<p>Explore the environmental, economic and social sustainability of attempts to achieve food security, in relation to:</p> <ul style="list-style-type: none"> • technological developments, such as GM crops and hydroponics <p>Scale: National, Local</p> <p>Explore the environmental, economic and social sustainability of attempts to achieve food security, in relation to:</p> <ul style="list-style-type: none"> • small scale 'bottom up' approaches, such 	

			as urban gardens and permaculture Scale: National, Local	
20	Spring T2	Development Dynamics	Definition of 'development' and the ways in which countries can be classified, such as AC, EDC and LIDC Global distribution of ACs, EDCs and LIDCs Scale: Global	
21			Economic and social measures of development, such as GNI per capita and Human Development Index, and how they illustrate the consequences of uneven development Outline the human and physical factors influencing global uneven development Scale: Global	
22			Explore the factors that make it hard for countries to break out of poverty, including debt, trade and political unrest Scale: Global, National	
23			Overview of the economic development of an LIDC, including influences of population, society, technology and politics, particularly in the past 50 years, or post-independence Scale: National Explore whether Rostow's model can help determine the country's path of economic development Scale: National	
24			The extent to which the relevant Millennium Development Goals have been achieved for	

			<p>this LIDC Scale: National</p> <p>Investigate how the LIDC's wider political, social and environmental context has affected its development Scale: Global, Regional, National</p>	
25			<p>The country's international trade, such as potential reliance on a single, or few, commodities and how this influences development Scale: Global, National</p> <p>The benefits and problems of trade and Trans National Company (TNC) investment for development Scale: Global, National</p>	
26			<p>The advantages and disadvantages of international aid or debt relief for its development Scale: Global, National</p> <p>Compare the advantages and disadvantages of one top-down and one bottom-up strategy in the country Scale: National, Local</p>	
27		Exam Preparation
