## Register of Business /Pecuniary Interest 2022/2023

PSA is committed to raising awareness amongst Board members of their responsibility to avoid conflict of interests by acting in good faith and for the benefit of the respected schools. As part of the schools commitment to openness and transparency, an annually updated Register of Interests is to be maintained and made available for public inspection. The register is designed to protect both PSA and individual Board members from damaging allegations of corruption and possible punitive actions. Individuals should include interests of both themselves any member(s) of their immediate family (including partners).

LAB member name	Date of Declaration	Declared Interest	Action to be taken	Signature of Member
